Ms. Kerri Mullins
Waste Management, Inc.
Heckathorn Project Office
401 Wright Avenue
Richmond, CA 94804

Dear Kerri:

LRTC requests that upon Waste Management's removal and loading of contaminated items from the dewatering pad to not dismantle the asphalt pad and berm.

Per advice of Legal Counsel, Paragraph 7.8 of the Work Plan as an attachment to the Access Agreement, LRTC does not have a requirement to provide any type of release for requesting that the pad not be dismantled.

Regards,

Mike McCoy
Project Coordinator
